PROFESSIONAL SUMMARY

Ambitious and solution-oriented individual with a strong commitment to excellence, consistency, and growth. Known for persistence, calm problem-solving, and the ability to stay focused under pressure. Driven by a desire to become highly proficient, inspire others, and make a lasting impact through dedication, problem-solving, and continuous learning.

EDUCATION

B.A. Statistics and Economics – University of Ghana (2016 – 2021)

AI Prompt Engineering Certification – Prodigee (Completed August 2024)

Software Engineering Program – Codetrain Africa (November 2024 – Present)

PROJECTS

- Expensio – Expense Tracker Web App (Live: <https://expensio-app.netlify.app/>)

Built a full-featured expense tracking application using React and Firebase. Implemented CRUD functionality and responsive UI for seamless user experience.

- JobFind – Job Seeking Dashboard (Live: <https://jobfind-website.netlify.app/>)

Developed a dashboard to display and filter job listings using React and Node.js.

- School Dashboard (Live: <https://student-management-proj.netlify.app/>)

Created an interactive school management interface with role-based UI components in React.

- Portfolio Website (Live: <https://portfolio-websitez.netlify.app/>)

Designed and deployed a responsive personal portfolio to showcase projects and skills.

- Men's Fashion Website (Live: <https://male-fashion-shop.netlify.app/>)

Built a modern product display interface focused on layout, visual appeal, and user engagement.

- Shopping Website (Live: <https://shopping-webz.netlify.app/>)

Developed an e-commerce style front-end layout with product listings and user interaction.
